

REMOVING THE BARRIERS TO MENTAL HEALTH SUPPORT

The **Ray of Hope Cancer Foundation** is committed to helping remove the barriers to mental health support for cancer patients and their family members due to a cancer diagnosis, disease progression, or loss of life.

We seek to facilitate access to top pre-screened counselors looking to work with families touched by cancer and help cover the cost for those that are not otherwise able to pay for the care on their own.

OUR GOALS

- Raise awareness of the importance of mental health and the challenges that exist when a cancer diagnosis is introduced into a family.
- Break the stigma associated with asking for and receiving mental health support.
- Provide mental health services via licensed providers for those that would not otherwise have access.

HOW IT WORKS

ACCESS TO SPECIALIZED THERAPISTS

Through our website, we provide access to specialized mental health support for individuals and families, touched by a cancer diagnosis. Our list of providers are licensed in the state of Colorado, have clinical experience in behavioral medicine, medical and oncology setting, and have specialized training in key areas including Psychosocial Oncology, Grief/Loss, Caregiver Stress and Health Anxiety.

FINANCIAL SUPPORT FOR MENTAL HEALTH SERVICES

The Mental Health Support Grant is set to launch in June 2022. This grant program will help pay for mental health services for those that are not otherwise able to pay for the care on their own.
